HLT One

BABY PREMIUM

A splash of joy, one little sip at a time.

Internal Use

Built from the master logo

All touchpoints

The HLT One Logo

Our logo brings together four elements: the bold "HLT" sticker wordmark, the "One" cloud lettering, Habibara the water-droplet mascot, and the "BABY PREMIUM" subtitle. Always reproduce from the master artwork — never recreate, trace, or redraw it.

MASTER LOCKUP — PRIMARY

This is the master file. Everything in these guidelines is built from this single piece of artwork. Use the supplied logo exports only — never typeset, trace, or AI-regenerate the lettering or Habibara.

LOGO ANATOMY

A — HLT

Navy sticker wordmark

B — ONE

Splash-blue cloud lettering

C — HABIBARA

Droplet mascot, pointing up

D — SPARKLES

Gold ✦ accent stars

E — BABY PREMIUM

Navy spaced subtitle

Background rule: The wordmark uses white letter-fills with a navy outline, and the "BABY PREMIUM" subtitle is solid navy. On Paper, Cream or Splash Pale, place the logo directly on the surface. On Deep Navy or any dark / busy surface, always set it on a white or cream tray so both the lettering and the navy subtitle stay legible.

LOGO VARIATIONS

★ PRIMARY — PAPER / CREAM

SECONDARY — DEEP NAVY + CREAM TRAY

TERTIARY — SPLASH BLUE + CREAM TRAY

CLEAR SPACE

Give Habibara room to breathe. Minimum clear space on all sides is $\frac{1}{2}x$, where x is the cap-height of the "HLT" wordmark. On packaging or busy layouts, increase to **1x**.

MINIMUM SIZES

LOGO DO'S & DON'TS

✓ **USE ON APPROVED BACKGROUNDS**

Paper, Cream, Deep Navy, or Splash Blue only — always on a cream tray over dark surfaces.

✗ **NEVER STRETCH OR SQUISH**

Always scale proportionally. Habibara and the lockup must never look distorted.

✓ **MAINTAIN CLEAR SPACE**

Keep the exclusion zone free of text, other logos, and visual clutter.

✗ NEVER RECOLOUR THE LOGO

Do not alter the navy outline, the Splash-blue lettering, or the white letter fills.

✓ SCALE PROPORTIONALLY

Resize uniformly at any size. The lockup must always stay charming and recognisable.

✗ NEVER ON BUSY OR GRADIENT BACKGROUNDS

No gradients, photos, or competing colour fields. The navy subtitle disappears — keep it clean.

Meet Habibara

Habibara is our cheerful water-droplet character — friendly, hydrating, and full of life. She's the face that makes little ones smile and parents feel at ease.

The name "*Habibara*" blends *habib* (حبيب — "beloved" in Arabic) with the bubbly sound of a happy splash. She points to the sky, beams a closed-eye smile, and sits atop the "One" cloud — a small reminder that hydration and care can be playful, never clinical.

A little drop of joy. ✦

✓ Always cheerful

Habibara appears happy — eyes closed in a smile, cheeks blushed, finger pointing up. Never sad or distressed.

✓ Atop the "One" cloud

In the full lockup she always sits on the "One" cloud. The gold sparkles stay with her.

✓ Approved colour palette

Light-blue body (#6AC5E1) with a deeper shade (#389BC9), navy outline (#1B2E5C), white highlight, coral cheeks (#EFA0A6).

✗ No redraws

Use master artwork only. Do not redraw, AI-regenerate, or restyle Habibara — including emoji or sticker versions.

✗ Not without endorsement

When used as identity, the "HLT One" or "Baby Premium" endorsement stays attached in proximity.

✗ Never scary

No frowning, crying, dark shadows, or distressed expressions. Habibara is always optimistic.

Our Colours

Sampled directly from the master logo. Splash Blue leads — bright, hydrating, alive. Deep Navy anchors. Sunshine and Coral add the warmth that keeps the system playful.

Important: Splash Blue (#5EC2E7) is the hero colour. Deep Navy (#1B2E5C) is the anchor and our largest surface area on packaging and digital. Sunshine and Coral are accents — about 10% of any layout — never headline colours.

Type with Heart

A rounded, friendly system that reads warm but never childish. The "Habibara" wordmark itself is custom-lettered and is never recreated with these fonts.

The wordmark is custom artwork.

The "HLT" and "One" lettering inside the logo are custom-drawn — chunky strokes with white fill and a navy outline. They are not fonts. Never typeset the brand name using Baloo 2 or any other typeface in place of the master logo. Outside the logo, use Baloo 2 800 for the brand name in body copy and headlines.

How We Speak

Habibara talks like a warm, knowledgeable friend — playful when it suits, honest always, never corporate.

Warm & cheerful

We celebrate small moments without being saccharine. Real warmth, not corporate cheer.

Honest & clear

We say exactly what's in the pouch. No spin, no fear-mongering, no jargon.

Playful with care

We can be cheeky and a bit splashy — but never at the cost of parent trust.

DO SAY / DON'T SAY

✓ WRITE LIKE THIS

A splash of joy for little tummies — that's Habibara. Real ingredients, gently prepared, by HLT One.

First sip face. Priceless. Habibara is made for the moments you'll remember forever. ✦

Nothing extra. No added sugar, no salt, no preservatives — just what little ones actually need.

✗ AVOID THIS

~~Our proprietary blend of premium ingredients is scientifically formulated to optimise paediatric nutritional outcomes.~~

~~WARNING: Contains allergens. Consult your healthcare provider prior to introduction.~~

~~As a leading provider of paediatric hydration solutions, HLT One leverages cutting-edge processes.~~

Visual Mood

Bright, calm, real. Soft natural light, hands and faces in close, hints of blue in the background. Never clinical, never staged-perfect.

✓ Real family moments

Soft natural light. Genuine faces. The unposed in-between moments at home.

✓ Product still life

Habibara products on natural surfaces — linen, wood, soft blue washes. Hydration as ritual.

✓ Hero brand frames

Deep navy backdrops with the droplet front-and-centre — campaign hero shots and digital banners.

✗ Generic stock

No staged smiles or clichéd "perfect family" shots. Parents see right through it.

✗ Clinical / sterile

No laboratory whites, medical settings, or over-lit "product on white" shots.

✗ Loud, garish visuals

Habibara is calming. Avoid neon, psychedelic, or saturated non-brand colour treatments.
